### Epperson Springs!

THOSE faluable and highly Medicinal Springs are located in Misson county, Tennessee, on the waters of Trammel Creek, Lur miles from the turnpike leading from Gallatin, Summer county, Tenn., to Scottwills and Glasgow, My, and of easy access from all directions. The propositions are now presented to excompudate as many gow, Ky, and of easy access from all directions. The proprietors are now prepared to accommedate as many as probably may favor them with a cell. For chronic affections for the Stamach and Bowels, Liver and Spleen, it dears and Bladder also, of the Skin, Scrottila, Dropsey, an many of those silments of which females are the silvent but severe sufferers, no remed as have been found so activary, and none superior to a few weeks acjuaro at, and the use of these waters. In cases of stone in the Bladder they hare, in many instances, acted as a sovereign balm, and in all have afforded relief. There are three varieties of Sulphur Water, and one strongly impregnated with iron. A corre t analysis of all of which will be made upon the promises, as promised by Prof. Safford, State Geologies, as me time during this year. Dr. D Bow, one of the Proprietors, will be constantly at the Spring, unless professionally away, who will take pleasure in giving such advice and attention to lavalide, as an experience of 2 years may enable him to give, without any additions a carge in the day time, except for Medicine or for Surgica operations. Their charges will be as follows, viz:

Regular boarders from the 1st of May to 1st of October, (washing extra). Washing extra) 70c per day. Regular boarders from the lat of October to lat of May, 

Servants half price and Children of 10 years old and under half price—unless parents shall prefer to have them seared and waited on at the first table. The reason why a difference is made in the price of boarding as above stated in in consequence of the Mineral W ters being somewhat weakened during the wet season of Fall and Winter Some deduction will be made in the bills of such as remain over one month it required.

FARMERS AND STOCK RAISERS, I offer you a Corn and Cob Mill unsurpassed in the Union, and which cannot be superceded by past or future inventions. It is the very Mill which every Farmer and Stock Maiser should have; it will crush from 8 to 10 bushels Corn and Cob per hour, with one house; is suisily litted to the corn and cob per hour, with one house; is suisily litted. up and managed, weighs \$40 lbs, and as all contact of the grinding surfaces is prevented, will last any farmer an or dinary lifetime. I speak thus of its durability because the same principle has been fairly tested in the old Bark Mill Who is it that wabts

This Crusher can be attached to horse, water or steam power, which renders it the most convenient Mill south of Mason's and Dixon's line. All other Crushers now in the south require too much power, or will soon wear out. According to THE LAWS OF NATURE

THE LAWS OF NATURE

a Corn and Cob Mill which admits of a lateral or wabbling motion, will, necessarily, soon wear out, all other Crushers are amenable to this grand objection, and the Proprietors dare not dispute it. In the construction of "Young Amenated," I have gained power, and I dely contradiction; I have lessened friction, and II challenge one word to the contrary; I have prevented a wabbling lateral motion, and all are compelled to acknowledge it; therefore, I assert that it is far appear to any other Mill. I am now selling this Tan nessee invention at the small sum of FIFTY DOLLARS. FIFTY DOLLARS.

And any one wanting a "good thing," is earneally re-quested to examine the true merits and principles of this Mill, and order from the Proprietor or Agents.

Constitutional Debility, brought on by self-abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this Infallible Remedy.
